GUIDE FOR USERS

Serial Holdings is a listing of the serials in the Centers for Disease Control Library. Titles are arranged alphabetically by major words. Each serial is listed under a distinctive title and changed titles are listed as separate entries. Titles beginning with initials are listed at the beginning of each letter of the alphabet, e.g., DM precedes Dermatologia, Revista Mexicana. CDC publications are shelved under the CDC heading at the beginning of the letter C.

An entry includes the following information:

(1) Title of the serial
(2) Beginning volume and year held by the library
(3) Volumes and issues missing from the collection

Samples:

Bulletin of the World Health Organization
v. 1, 1947 -
(The CDC Library begins with v. 1 and has a continuing subscription)

Advances in Cancer Research
v. 5, 1958. v. 7, 1963 -
(The CDC Library begins with v. 5, is missing v. 6 and continues with v. 7 to date)

Gut
v. 9, 1968 - v. 11, 1970 (7). v. 12, 1971 -
(The CDC Library has vols. 9 - 11, but v. 11 is missing issue no. 7, then continues with v. 12 to date)

Parentheses after the year indicate missing issues.

All serials except the current issue are available on a one-week loan and may not be renewed. The current issue may be taken out for two hours only.

Please retain this list until superseded.

SYMBOLS

- A dash after the year indicates that the library is currently receiving the title.

. A period at the end of the entry indicates that the title has ceased publication or that the library no longer subscribes.

Titles that do not show holdings are kept for the current year only.
